

Renovation Roundup

LMC Construction last week completed a two-month exterior renovation for the Village Square Apartments, a 72-unit Gresham complex. The project included siding repairs, roofing replacements, gutter and downspout installations, sealcoat and striping work, exterior painting and attic duct repairs. Also, new pavement was laid.

The DJC focuses on renovation projects in and around the metropolitan area each Monday. If your team is working on a project you would like to see in the DJC, contact **Sam Tenney** at sam.tenney@djcOregon.com or **503-802-7227**.
